

VICARIOUS: PERFORMANCE, PSYCHOPHYSIOLOGICAL MONITORING AND BROADCAST TECHNOLOGIES TO THRILL AN AUDIENCE

A LECTURE BY:

BRENDAN WALKER

MONDAY 25TH JANUARY 2010, 4PM - 6PM

ROOM 137A, RICHARD HOGGART BUILDING, GOLDSMITHS

Brendan Walker is “the world’s only Thrill Engineer”. He originally trained as a military aeronautical engineer, before researching and teaching in Interaction Design at the RCA. Brendan now runs Aerial - a design practice specialising in the creation of tailored emotional experience, with clients such as The Science Museum, Merlin Entertainment, and Disneyland. Brendan is a visiting Senior Research Fellow in the Mixed Reality Laboratory at the University of Nottingham.
